

Parking Restrictions on I-15 through the Virgin River Gorge

As part of a bridge rehabilitation project, the Arizona Department of Transportation will restrict parking through the length of the Virgin River Gorge beginning in September 2007. The project is expected to be complete by June 2008.

Drivers can expect lane closures, reduced speeds and brief delays 24 hours a day, seven days a week, throughout the project’s duration. Please drive safely and obey all posted restrictions.

Project Elements:

- Structurally reinforce the set of northbound and southbound bridges at milepost (MP) 22.5 by combining the two bridges into one
- Replace the existing bridge rails with concrete barriers on all bridges from MP 13 to MP 23
- Apply a sealant to prevent deterioration
- Spot pavement repair, pavement markings and other related work

ADOT and the contractor appreciate the public’s patience during construction. More information can be obtained by calling the project’s toll-free hotline at 1-866-659-0656 or by tuning into the project highway advisory radio station at AM 1610 on the north end of the Virgin River Gorge and AM 1620 on the south end.
